## Meet Bo!

### Meet Bo, our unofficial Beyond The Backyard mascot!

Many of you may have seen him on our Facebook page recently. Bo is Bobby's companion in the outdoors and is training to be his newest hunting dog. A lot of our members have dogs of their own and have been asking questions on how Bobby is training his new lab. Be sure to watch our social media sites because Bobby is going to be giving you some tips on how he trains Bo and will be sharing his experiences with you.

### Nature Crafts: LEAF Chalk Art

When you're outside this spring, find the coolest looking leaves you can find and take them home. All you need is chalk, markers, or paint and you can create some really cool art to display. Check out some of the art that others kids have done.

## Introducing Our First Pro-Staffer

# Chase Herndon

Beyond The Backyard is all about kids. And we know that sometimes you get tired of seeing and hearing from us adults. So we have come up with an awesome idea to feature some of our older BTB members as our new pro-staff members.

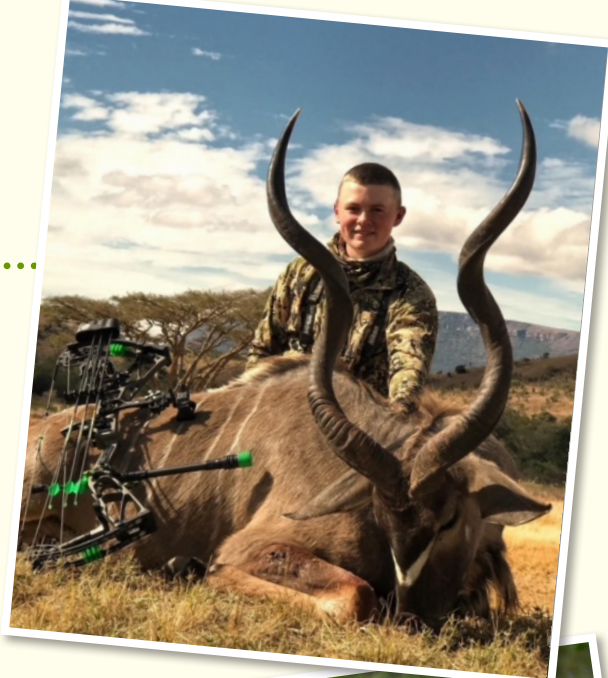

Throughout the year, you will be hearing from them and seeing them as they take our over our social media. Our first pro-staffer to join us is Chase Herndon.

Chase grew-up in Logan County, West Virginia and has been heavily involved in Beyond The Backyard nearly all of his life. He graduated from Logan County High School in 2020 and is currently attending Union College in Kentucky, where he earned an archery scholarship and is a part of their archery team.

Hunting whitetail and turkey has been a passion that Chase has had since he was a little boy. In 2018 he got the chance to hunt in Africa for 14 days. While he was there he harvested a zebra, blue wildebeest, impala, kudu, among others. He's still waiting for those animals to be shipped back to him here where he plans on getting them mounted.

Chase's future plans including earning his marketing degree and possibly going to law school. Currently he is working on an outdoor industry related marketing business using social media platforms.

You'll be seeing Chase on our social media feeds soon. He can't wait to share his experiences with you and get to know you. In the meantime, you can follow him on Instagram at **chase\_herndon** or friend him on Facebook.

Most fish can see in color and use colors to camouflage themselves or defend themselves and their territory. Most fish have the best eyesight for their habitat and can most certainly see you peering at them in a fish tank.
